----	------------------------------	----

Hacking

SA	PC Reznor – Nikki Chadburn	59
----	----------------------------	----

Halter

SA	Lyndsworth – Kath Hurrell	144
----	---------------------------	-----

The point scores are now closed for 2009. Please remember that it helps if you include a stamped, self addressed envelope with your card so I can send it back to you quickly and preferably to separate disciplines eg hacking on one card, dressage on another card and preferable official on one card and unofficial on another card. If you need new cards for 2010 please let me or your committee state representative know.

Also please remember for next year to not resend me your results that I have already tallied as this got rather confusing working out what points I had already registered and adding in new ones. Please only send me new results to add.

If you are a new member and don't know about the Point Score system – basically if you are out and about competing in any discipline – we do this system where you enter your results in the CBHSA Point Score Card (which we send you) and then the results are published in the Bay Bulletin and on the web page. How to keep record of your points is outlined on the back of this card. The card is sent to me twice a year to record your results and publish the results via the website and Bay Bulletin too to see how you are going compared to all the other competitors during the year.

If you need a Point Score card please let me know by email angie@scitech.org.au or give me a call or txt with your address details 0439 855 884.

Please note that we only allocate trophies to winners in each category where there are TWO or more competitors and an overall trophy for the person with the

highest number of points across all categories. Where there are equal top points a trophy will be presented to each member.

Have a wonderful New Year.

Kind Regards

Angie Kara
